Projects & Experience

Goalsreach 09/2022 – Present
Founder & iOS Developer

Designed, developed, and launched Goalsreach, a self-accountability iOS app built using SwiftUI and Xcode.

Integrated user-friendly UX/UI principles to create seamless navigation and functionality.

Promoted the app across platforms, managing social media marketing to build brand awareness.

Available on the App Store with a growing user base.

Campus Companion 01/2022 - 05/2022
Prototyping Showcase

Conceptualised and designed Campus Companion, a UX/UI app aimed at enhancing the university student experience.

Developed detailed user flows, wireframes, and interactive prototypes using Figma to showcase intuitive navigation and functionality.

Integrated a points-based system inspired by Goalsreach to promote productivity and engagement.

Created a high-fidelity prototype with focus on user experience, visual design, and usability testing.

I'm a results-driven iOS Developer and UX Designer with a passion for creating user-friendly, impactful applications. Proven experience in app development, prototyping, and design, with a focus on enhancing productivity and engagement. Seeking opportunities to contribute to innovative projects and make a meaningful impact.
